Customer Journey Map

Medical Diagnostic Center – ServiceNow

From Test Selection to Report Access – A Seamless Digital Experience

Target User

Patient

A person who needs diagnostic tests and wants a simple, fast and secure way to book, pay and get reports.

Journey Stage	1. Discover & Browse Tests	2. Select Test	3. Enter Patient Details	4. Book Appointment	5. Make Payment	6. Track Appointment	7. Test Completed & Report Generated	8. View Report
What the Customer Does	• Searches for available diagnostic tests. • Reads test details, price and preparation info.	• Chooses the required test. • Compares options if needed.	• Enters personal and medical details. • Uploads required documents (if any).	• Selects preferred date and time slot. • Confirms appointment details.	• Chooses payment method (card/UPI/ wallet). • Completes the transaction.	• Checks appointment status in the portal. • Receives updates via SMS/email.	• Waits for test completion. • Gets notification when report is ready.	• Logs in to view the laboratory report. • Downloads or shares the report if needed.
Touchpoints (Channels)	ServiceNow Portal / Mobile App Search	ServiceNow Catalog	ServiceNow Form	ServiceNow Calendar	Payment Gateway (Integrated with ServiceNow)	ServiceNow Notifications (SMS / Email)	Lab System (Integrated with ServiceNow)	ServiceNow Portal / Mobile App
Customer Emotion	Curious & Interested	Hopeful	Neutral	Confident	Satisfied	A little Anxious (Waiting)	Relieved	Happy
Pain Points	• Hard to find accurate test information. • Confusion about prices and preparation.	• Too many options to compare. • Unclear test details.	• Re-entering details multiple times. • Risk of data errors.	• Limited time slots available. • Rescheduling can be difficult.	• Payment failure or delays. • Unclear confirmation message.	• Uncertainty about test status. • No real-time updates.	• Waiting time for report. • Lack of communication on delays.	• Difficulty finding the report. • Security concerns about data privacy.
Opportunities (How we can improve)	• Provide easy search and filter options. • Show clear test details and pricing.	• Add comparison feature. • Highlight popular tests.	• Auto-fill option (if available). • Validate data in real-time.	• Show available slots clearly. • Allow easy rescheduling.	• Support multiple payment options. • Provide instant confirmation message.	• Real-time tracking with status updates. • Send notifications via SMS/email.	• Show estimated report time. • Notify when report is ready.	• Easy access to reports in one place. • Ensure data security and privacy.

Goal

To provide a simple, secure and seamless digital experience for patients to book diagnostic tests, make payments, track appointments and access laboratory reports through the ServiceNow platform.
