Project Name	**Medical Diagnostic Center – ServiceNow**
Maximum Marks	**2 Marks**

Problem – Solution Fit

The **Medical Diagnostic Center** project addresses the difficulties faced by patients in managing diagnostic tests, appointments, payments and laboratory reports through manual or disconnected processes.

The proposed **ServiceNow-based Medical Diagnostic Center** provides a centralized digital platform where patients can browse diagnostic tests, book appointments, provide their details, make payments, track appointment status and access laboratory reports.

Problem

Patients may face the following challenges:

- Difficulty finding and selecting appropriate diagnostic tests.
- Manual and time-consuming appointment booking.
- Difficulty selecting and managing appointment slots.
- Lack of visibility into appointment status.
- Uncertainty regarding payment and booking confirmation.
- Delays or difficulty accessing laboratory reports.
- No single platform to manage appointments and reports.

Target Customer

Primary User: Patient

Other Users: Doctor / Lab Technician and Administrator

Proposed Solution

A **ServiceNow Medical Diagnostic Center application** that provides an end-to-end digital workflow:

Browse Tests → Select Test → Enter Patient Details → Book Appointment → Make Payment → Confirmation → Test Completion → Report Generation → View Laboratory Report

Problem–Solution Fit

Customer Problem	Proposed Solution	Expected Benefit
Difficulty finding diagnostic tests	Centralized Diagnostic Test Catalog	Easy access to test information
Manual appointment booking	Online Appointment Booking	Faster and convenient booking
Difficulty managing time slots	Appointment Slot Selection and Validation	Better appointment management
Lack of appointment visibility	My Appointments page with status tracking	Clear visibility of appointment status
Payment uncertainty	Payment Status Management	Clear payment confirmation
Difficulty accessing reports	My Lab Reports portal	Easy access to laboratory reports
Manual report creation	Automatic Report Generation after test completion	Reduced manual processing
Lack of communication	Automated Email/Notifications	Timely updates and confirmations
Need to protect patient information	ServiceNow Roles and ACLs	Controlled access to information

Solution Fit Statement

The proposed solution fits the identified customer problems by bringing **test selection, appointment booking, payment, appointment tracking and laboratory report access** into a single ServiceNow platform. Automation through **Business Rules and notifications** further reduces manual processing and provides a more consistent digital experience for patients and diagnostic center staff.
